

Mission

With a team from Asia, DETIK aims to be a leading Non-Fungible Token (NFT) brand name in the NFT space, driving innovation and increasing adoption for NFTs. DETIK will build its brand through real-world partnerships and utilities that will benefit the community.

Background

DETIK was founded by 6 Malaysian as a means to promote Nusantara Culture & Heritage in the new form of art. From Day 1, we have been adopting an "Art and Community First" approach in handling the project, from the attention to detail put into interactive value in the NFT assets,DAO and token utility,organised and smoothly run discord server.

As a result, we have grown into a 300 hodler strong community in just a little over 3 weeks. Naturally, we want to set our sights on the next phase of the project, where we shed light on how we are going to introduce utility into our ecosystem, as well as the various long-term benefits for our DETIK NFT and \$DTK token holders.

Our team will continue to deliver what we promise to the best of our abilities and be as transparent as we can, and this White Paper is one of the initiatives in doing so.We hope to bring value to all our NFT holders while further building & strengthening the Newsantara community, bringing this project to greater heights (i.e. The Moon).

Artwork

The first 8 of the character are the NFT that evolve through time(Detik). The Detik Rangers consist of 8 character that represent empire that rule the Newsantara. They're made for embracing Nusantara paradox histo craft in each character and can be used as profile pictures and physical passport into metaverse.

We wanted Newsantara stand out in interactive way. This proved to be beneficial during our early stages. The NFT will both available in digital and physical way and soon can interact with AR/VR and Metaverse.

Will expand the Newsantara universe with additional features and updates, allowing it to continually grow in ways that the community values most.

What is the story of DETIK RANGERS? What does DETIK mean?

Sundaland was once a peaceful and prosperous land that ruled under an emperor who gave love eternal life. This was bliss for many people, but suddenly, when the emperor died without a heir, everything collapsed. NAFS colonized the land. Now, assemble means to come back as a new form called Newsantara. The Detik Rangers are their greatest enemies : themselves.

- Nusantara
- Srivijaya
- Angkor
- Majapahit
- Gangga Negara
- Funan
- Champa

Launch Information

Minting for DETIK RANGERS will be available on our website here.

We will be releasing more step by step instructions on how to mint (beginner friendly)

- Presale for OG: 15th November
- Public sale: 20th November

NFT

Our NFTs are built on top of the ERC-1155 protocol on Ethereum.

The development team has made substantial considerations to ensure that the smart contract, website and launch page will not be susceptible to any form of malicious attacks.

\$DTK

Tokenomics and Utility

\$DTK is the BSC-20 social token within the DETIK ecosystem and holders will be able to enjoy a host of benefits with more added utilities to come as we develop.

The utilities of \$DTK includes:

- Earning \$DTK through staking of your \$DTK
- Earning DNFT through \$DTK
- Exclusive access to holders presale for our second season collection (detailed requirements will be released in the future)
- Buying merchandise with \$DTK
- Participating in giveaway raffles
- More to come...

DAO

- 50% will be funded to DNFT project with local artist and our partnership.
- Will collectively be able to vote on the future of the project and its developments
- Will aim to fund and mentor untapped talent to onboard into the Web3 ecosystem, making the DETIK DAO a gateway for future Rangers to hold their throne.
- Will expand the DETIK universe with additional features and updates, allowing it to continually grow in ways that the community values most

The full tokenomics of \$DTK will be released in Whitepaper V2 before staking begins.

Partnership

During our early stages, we found out that many of our community members were in fact managing their own businesses. We reached out and gather positive responses for potential partnerships.

This means that Detik holders can look forward to exclusive deals in our partner stores, making DETIK NFT like a membership card. Specific details will be released in the coming weeks after launch.

If you happen to be a business owner (retail/online) and would like to be a part of this amazing journey with us, do reach out to us through discord or drop us an email at detiktoken@gmail.com! We would be more than happy to exchange opportunities with each other!

Roadmap

Launch Roadmap

Appreciation

25% - 8 Detik Rangers will be evolve into 3D NFT with AR unlockable content interact with physical card. The earliest holder OG will be airdrop as appreciation from us for supporting DETIK since day 1.

Outreach

50% - We will plan and collate orders for exclusive merchandise that contain DETIK brand starting with Tshirt. Additionally, we will be looking for potential vendors that can produce 3D Print such as brand-engraved miniature cyber weapon. These will all only be available to Detik NFT holders.

Community

75% - Time to expand the Newsantara universe! We collectively gather artist/musician/writer from same practical approach toward creation of Nusantara universe. We will buy lot from Decentraland for community event, exhibition, and activities.

Stability

100% - 50% will be funded to DNFT project ,improvement of marketplace and development of DNFT app.

Development Roadmap

We have always prided ourselves as a project with a strong community and will take relevant steps in distinguishing ourselves from other competitors in the space.

Decentralised Finance (DeFi)

We are dedicated to integrating DeFi solutions into our ecosystem and our community can benefit from it by earning passive income through our staking and reward mechanisms. Concepts such as wrapped and fractionalised NFTs may also be explored in the future.

Membership Model

Detik will look to build out our network of partnerships with existing traditional businesses across a plethora of industries such as Telco, Electronics, Media and many more to give benefits such as discounts to our NFT holders. We have already contacted multiple small businesses owned by the community as a start and will be looking to build on that as we grow.

Merchandise

Having well-designed and recognisable merchandise is the cornerstone of every successful brand and we are already working with designers and suppliers to create the merchandise.

Metaverse

The team is still actively assessing how different projects in the market are navigating the metaverse and gaming NFT sector before setting a concrete direction. We wish to remain agile so that there will be less friction pivoting between trends.
